## Sage Advice

If there is one enterprise upon earth that the quitter should never attempt, it is advertising. Advertising does not jerk—it pulls. It begins gently at first, but the pull is steady; and it increases day by day and year by year until it exerts an irresistible power.

## Get Your Share Too

This magazine is filled with innumerable ideas, covering every possible phase of the organ world. Some of them are of use to you—will make you of greater usefulness to your community. Only you can judge which ideas they are or when they can be of use. But if you cannot find them again when you want them, of what use are they? Why not keep a little 3 x 5 card index file, one card to each subject, and on these cards make note of the special items in these pages that seem especially applicable to your work, so that when you need them, you'll know instantly where to find them again?
